The best meals come from marketplace fresh ingredients – from Electrolux refrigerators.

We have food as much as you do  
**Electrolux Kitchens**

## Bring the marketplace home, with Electrolux.

People across Asia tell us: there's nothing quite like the taste of food fresh from the marketplace. So we designed a new range of refrigerators with innovations that keep your food tasting marketplace fresh longer.

Now you don't have to go to the market every day, when you have a refrigerator from Electrolux.

### Professional style, redesigned for modern Asian kitchens.

With over 80 years of experience in commercial and private kitchens, Electrolux have designed an absolutely stunning range of professionally inspired refrigerators that are superior in both style and functionality.

The Electrolux refrigeration range is available in classic white with Argento silver handles or mark-resistant stainless steel. And each is designed to give all the spaciousness and flexibility in storage that food-loving Asian kitchens demand.

### Top Mount

**Our most spacious 2-door locks in market fresh flavours with powerful rear and side-cabinet airflow**

The classic fridge-below-freezer style of our top-mount refrigerator gives you more generous storage as well as an easy to access freezer above. Powerful cooling at the sides and rear helps to lock in fresh flavours and aromas, helping to prevent strong smells from one food mixing with the taste of any other.

- Multi airflow from rear keeps temperature at the optimum level, to retain marketplace freshness of food.
- Tempered glass shelf is extra strong, to support larger platters and serving bowls.
- Crisper with adjustable humidity control ensures your fruits and vegetables stay garden fresh.

### Compact Side-by-side

**Our stylish side-by-side features professionally inspired door handles, as easy-to-open as they are to admire**

With all the organisational benefits of a larger side-by-side, this clever model is designed to fit into the popular 900mm wide fridge cavity found in most modern kitchens – so you don't have to remodel your kitchen cabinetry to make it fit.

- Adjustable spill-safe, slide-away shelves for tidy, flexible storage.
- Deli compartment slides from left to right for added flexibility.
- Independent temperature control keeps foods fresher longer.
- Crisper with adjustable humidity control ensures your fruits and vegetables stay garden fresh.
- Tempered glass shelf is extra strong, to support larger platters and serving bowls.

## You are at the heart of everything we do.

At Electrolux, every product we make is designed to help you find a little more time, endure a little less stress and discover a little more well being.

For over 100 years, we've built a reputation as one of the world's most trusted household brands by listening to real people and designing products that they truly need. Our innovations are based on extensive research into what people like you truly want and need.

These insights have helped our design centres in Sweden, Germany, Australia and Italy to consistently develop award-winning products that not only perform better, but are also easier to use.

That's why, when it comes to your kitchen, the Electrolux name is your guarantee of quality, reliability and thoughtful design.

Not just design for design's sake, but for your sake. Always.

Electrolux. Thinking of you.
